

***PUBLIC NOTICE for
CATEGORICAL EXCLUSION from ENVIRONMENTAL REVIEW of
Individual Sewage Treatment Systems***

The purpose of this notice is to advise the public that the Minnesota Pollution Control Agency (MPCA) staff has reviewed the proposed Cottonwood River Watershed Non-Point Pollution Reduction project and has determined that the preparation of an Environmental Assessment Worksheet (EAW) is not mandatory. A preliminary determination has been made that no significant environmental impacts are anticipated.

Cottonwood River Watershed Non-Point Pollution Reduction project has applied for a loan under the Minnesota Water Pollution Control Revolving Fund and is, therefore, subject to the State environmental review process. Individual sewage treatment system upgrades or replacements within this project will be in accordance with MN Rules ch. 7080, which provide the minimum standards and criteria for design, location, installation, use, and maintenance of individual sewage treatment systems.

If you have questions, comments, or desire additional information about the project, please contact Mark Hanson at 1420 E. College Drive, Suite 900, Marshall, MN 56258. Mark Hanson can also be reached by phone at (507) 537-6000. Comments must be received within two weeks of publication of this notice in order to be accepted. Users of Telecommunication Device for the Deaf call (651) 282-5332.

Your interest in Minnesota's environment is appreciated.
